

Primary garage door track.

The image shows a close-up of a garage door track system. A horizontal track is mounted to a wall, and a vertical track is attached to it. A pulley is mounted on the vertical track, and two cables are attached to it. The cables run along the tracks. The background shows wooden framing and a textured wall.

8 1/8" from top of primary garage door track to top of the Lifestyle Screen track. (as measured from rear horizontal with 1" slope)

Lifestyle Screen horizontal track.

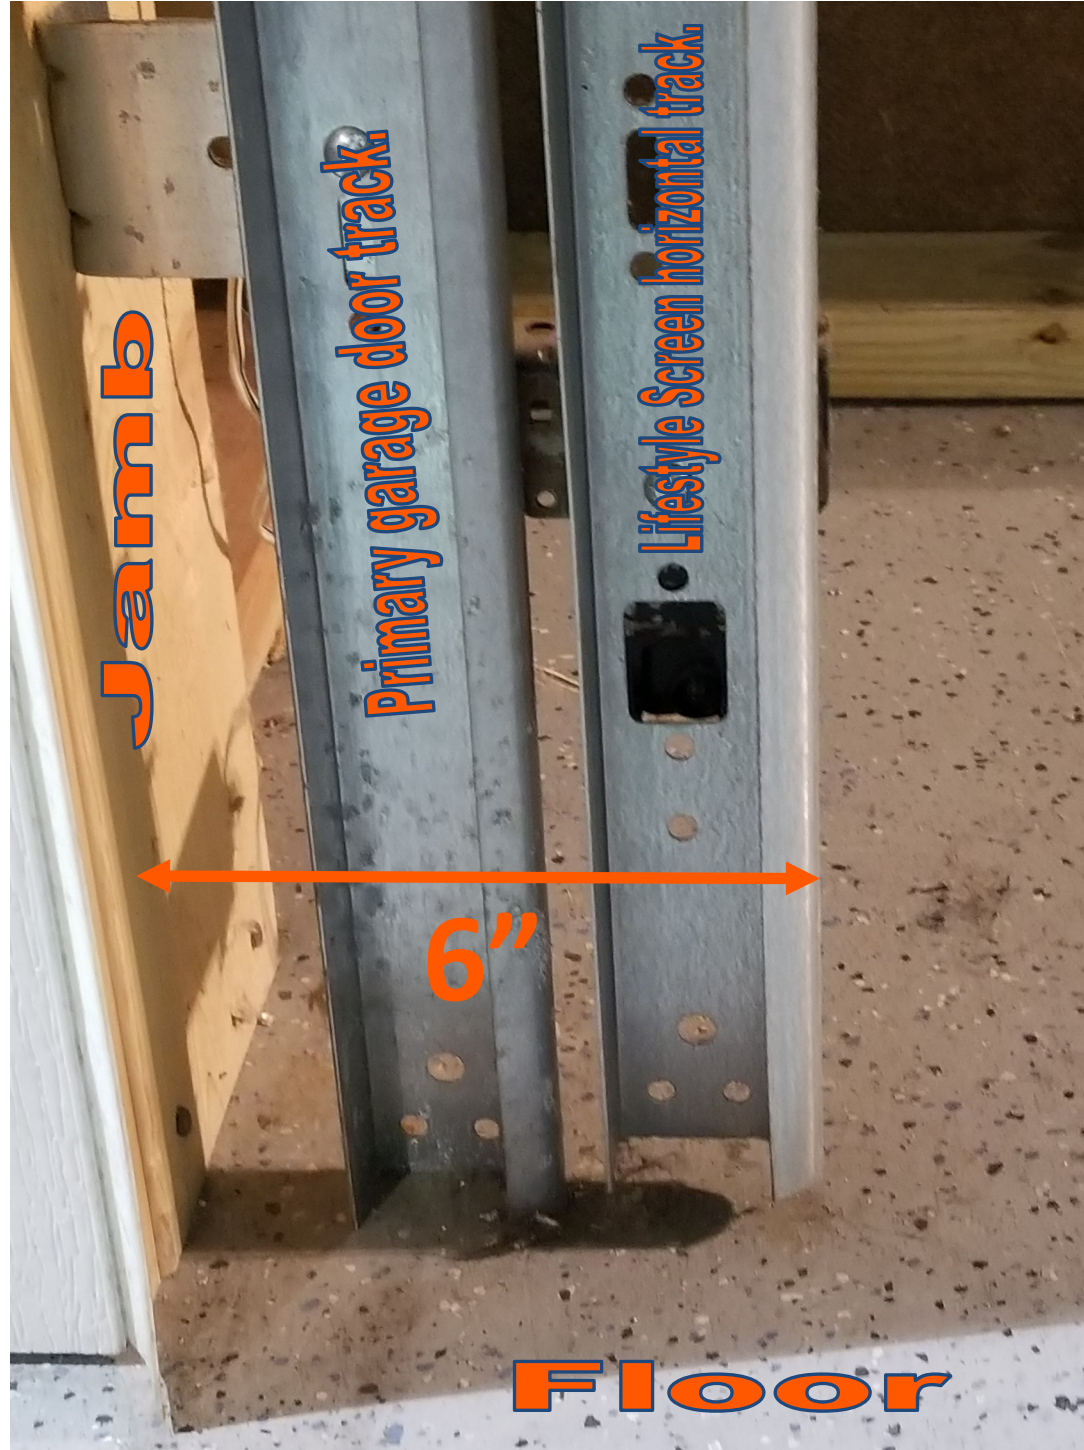

78 1/4" from bottom of Lifestyle Screen track to floor. (as measured from rear horizontal with 1" slope)

Primary garage door track.

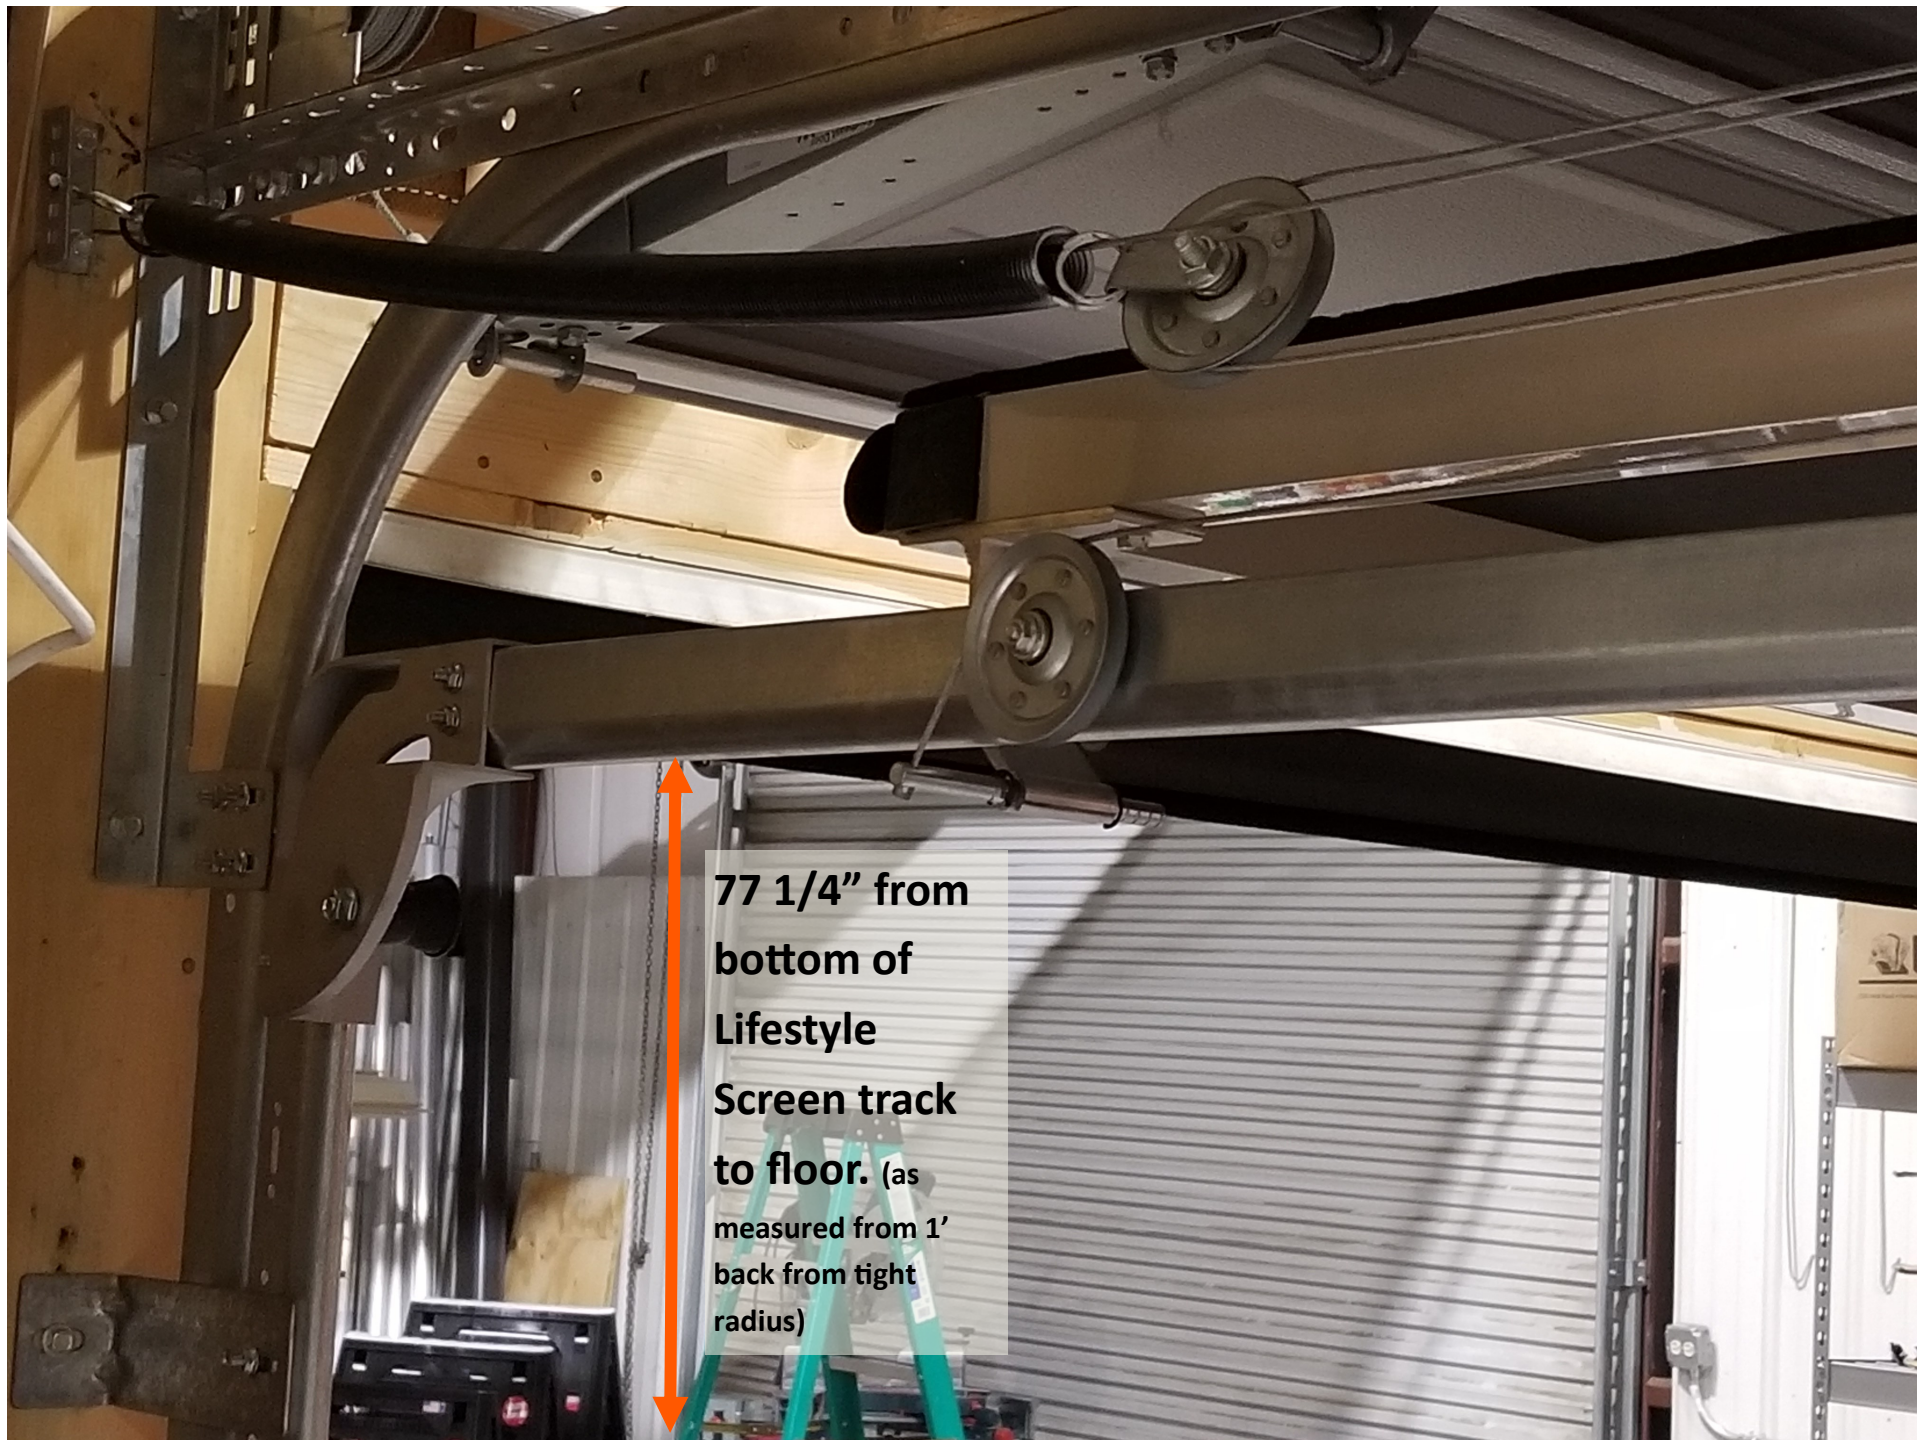

7 1/8" from bottom of primary garage door track to top of the Lifestyle Screen track. (as measured from front horizontal 1' from tight radius corner.)

Lifestyle Screen horizontal track.

77 1/4" from bottom of Lifestyle Screen track to floor. (as measured from 1' back from tight radius)

Floor
